

Stephensons BMH is the local Northern regional specialist Lift Truck company of the BMH group.

The group was formed to provide a nationwide coverage with unique local top management for local companies, who have the authority to respond to all of our customers needs locally without reference to Head Office.

At BMH we understand and accept that you, the customer demand that we the supplier of your Lift Trucks take 100% responsibility for providing a complete service, and that any problems should be promptly resolved - 24 hours a day, 7 days a week, supported by the personal phone numbers of your local BMH directors, if you think it necessary in an emergency.

It is this unique attitude to service that has underpinned Stephenson BMH growth over the past 25 years and seen their Short Term Hire operation thrive on repeat business from satisfied customers. Stephensons BMH rely on their service to keep their customers voluntarily rather than with fixed 5 year term contracts.

BMH HIRE SPECIALISTS IN SHORT TERM HIRE

Short Term Hire (STH) is not "casual" to Stephenson BMH. We understand that for the customer it gets round many problems and once you are sure that you have the right truck it can be converted simply to Long Term for added security.

To minimise supply time the Hire Controllers have computerised Post Code Maps to identify immediately your location and the nearest suitable truck from one of our 7 TRUCK POINTS - this is guaranteed to keep costs down and delivery speeds up.

Stephensons BMH optional innovative Hourly Rental Plan (HRP) enables you to hire trucks for

low usage at lower weekly rates from 10 to 20 to 30 to 40 hours. You simply choose what you think suits your

application and only pay more for actual excess running hours. Also you can change the category up or down.

Budgets and contractual restrictions can cause problems for management, as well as peak seasonal loads and breakdowns. All can be resolved by Stephensons BMH.

BMH SALES

THE RIGHT TRUCKS AT THE RIGHT PRICE FOR THE RIGHT JOB

Stephensons BMH have a comprehensive range of used and new trucks from the leading manufacturers, which guarantees that we can provide the right truck to suit your budget and application.

The range includes Very High Performance (VHP) hydrostatic shuttle trucks for peak and precision jobs to refurbished trucks (all warranted and money back guaranteed) for lower hour applications and limited budgets.

BMH GUARANTEED USED TRUCKS

Most of the trucks are leading makes and have been serviced since new by Stephensons BMH so it is safe for us to guarantee them. They are refurbished to 3 levels to suit budgets or workload. Every truck is offered with a "7 day money back guarantee" should you decide it is not right for the job.

PLATINUM

6 months for younger refurbished trucks that can be mistaken for being new.

GOLD

3 months for good looking trucks generally less than 10 years old and in good condition.

SILVER

Older trucks that are good for their age and suitable for lower working hours per week.

BMH ACQUISITION OPTIONS

Stephensons BMH, provide a broad range of economic options to meet your acquisition needs from 1 week to 7 years.

SHORT TERM HIRE:

by the week - without obligation to prove the application meets peaks and problems.

LONG TERM HIRE:

3 - 7 years with full maintenance at firm prices - for the lowest operating cost.

LEASE and H.P.:

3 - 7 years-when you want to own the truck at the end of a period. Higher cost for short period, lower cost for long period with flexibility to meet your taxation requirements. (Maintenance contracts optional).

Professional financial advice from leading Finance Houses as well as from our own staff can be made available on your site at your request.

**BMH PARTS: THE FAST,
COST EFFECTIVE SOLUTION.**

Stephensons BMH have geared up to meet the economic demands of the 21st century, by the introduction of their cost and time effective practices. The PARTS CENTRE at Warrington is at the hub of motorway and rail networks and close to Manchester Airport, which guarantees excellent rapid 'in' and 'out' movement for parts and people.

Parts ordered by 4 p.m. are shipped to your nearest of 21 PART POINTS. (Average 6.5 miles from you) for 7 a.m. collection, or 5 p.m. delivery direct to you at no extra cost.

Exceptional parts are flown in via Manchester Airport direct to your nearest "PARTS POINT" and not to Warrington saving time and cost. At Stephensons BMH we understand that down time is lost time; so we provide a very cost effective and quick service now and for the 21st century.

LOCAL PARTS & SERVICE FOR LOCAL SUPPORT.

Our fast response MOBILE WORKSHOPS are located locally throughout the North. The highly trained service engineers are all equipped with mobile phones for immediate contact with users as well as their base helping to plan orderly visits.

They carry fast moving service parts to maximise "FIRST TIME FIX" which reduces the cost to you. Travelling time charges are calculated from your nearest PARTS POINT. Typical of the points that reduce the time and actual 'job cost' to you.
